HAZARDOUS MATERIALS TECHNICIAN

COMPETENCY ASSESSMENT CHECK-OFF

North Central Florida Regional
Hazardous Materials Response Team

2002
EDITION

Introduction

This document has been developed to provide guidance for regularly scheduled competency maintenance of Hazardous Materials Technicians. The psychomotor skills found in the competencies outlined in NFPA 472, OSHA 29CFR1910.120 and the Florida State Emergency Response Commissions Public Sector Hazardous Materials Training Guidelines have been brought together in a series of five operational sections totaling 107 performance based skills.

This document is recommended for initial training of technicians as well as documentation of periodic maintenance. In accordance with OSHA 29 CFR 1910.120(q), the employer is responsible for designating appropriate re-certification procedures and the identifying the necessary qualification of those authorized to sign this document indicating successful completion of a competency. Those authorized signers should enter the necessary information in Appendix 1 to properly cross-reference their signature.
