PRELIMINARY AGENDA
NORTH CENTRAL FLORIDA (DISTRICT 3)
LOCAL EMERGENCY PLANNING COMMITTEE

Gainesville Regional Utilities
Eastside Operations Center
4747 North Main St., Gainesville, Florida

18 February 2016
10:00 a.m.
Thursday

I. INTRODUCTIONS AND CHAIR REPORT

II. APPROVAL OF NOVEMBER 19, 2015, MEETING MINUTES

III. LEPC BUSINESS ITEMS

a) Presentation of State Emergency Response Commission Yatabe Award Certificates of Appreciation
b) County Reports on Hazardous Materials Activities and Exercises
c) Tier 2 Reporting and Hazards Analysis Update
d) Group Discussion: Increasing Preparedness Between Facilities, Fire Departments, Emergency Management, Hazmat Teams and the LEPC

IV. PUBLIC INFORMATION ISSUES

a) 30th Anniversary of the Emergency Planning and Community Right-to-Know Act (EPCRA) / Hazardous Materials Awareness Week 2016: What have LEPCs accomplished in 30 years?
b) Membership Review
c) Other Public Information Issues

V. FIRST RESPONDER ISSUES

a) Hazmat First Responder Training Program and Classes
b) Pipeline Technical Assistance Grant Update
c) Status of Supplemental Environmental Projects Website and Database
d) Update on Commodity Flow Study: Planning Project for Fiscal Year
e) Report on Hazardous Materials Symposium
f) Regional Hazmat Team Update - Meeting, 1:00 pm

VI. OTHER BUSINESS AND INFORMATION REQUESTS

VII. NEXT MEETING DATE AND LOCATION

GUESTS PRESENT
Erin Miller
Frank DeFrancesco
Lilly Rooks
Ronald Grant
Darian Brown

STAFF PRESENT
Dwayne Mundy

The meeting was called to order at 10:15 a.m.

I. CHAIRMAN'S REPORT AND INTRODUCTIONS

Chairman Ron Mills welcomed everyone and asked that they introduce themselves. He reported on the recent Florida Emergency Preparedness Association activities and welcomed the new members from Marion and Levy Counties. David Knowles welcomed everyone to the Levy County Public Safety Complex and introduced Commissioner Rooks.

The LEPC watched a video of the recently completed full scale exercise "Obscured by Smoke." On September 10, 2015, the Gainesville Fire Rescue Hazmat Team participated along with hazmat responders from the Northeast District.

II. APPROVAL OF MAY 28, 2105, LEPC MEETING MINUTES

Action: **It was moved by Shayne Morgan and seconded by Scott Holowasko to adopt the minutes of the August 20, 2015, LEPC meeting as printed. The motion passed unanimously.**

DRAFT

III. LEPC BUSINESS ITEMS

Ron Mills reported that this was his last meeting and he thanked the members for their contributions to increasing public safety. Nominations Committee Chair David Peaton presented the nominations results for the LEPC:

Chair
- Shayne Morgan: 3 Nominations

Vice Chair, Public Information
- David Peaton: 2 Nominations

Vice Chair, First Responder
- David Knowles: 2 Nominations
- Scott Garner: 1 Nomination
- Dan Smith: 1 Nomination

David Knowles declined the nomination. No additional nominations were received from the floor.

Action: **The following LEPC members were elected as Officers of the North Central Florida Local Emergency Planning Committee: Chair: Shayne Morgan, Vice Chair, Public Information: David Peaton, and Vice Chair, First Responders: Scott Garner.**

Captain Dan Smith, Gainesville Fire Rescue was appointed as Training Task Force representative. Scott Holowasko was appointed as LEPC representative on the Regional Hazmat Team Policy Board.

Each county reported on hazardous materials related activities and exercises that have occurred since the last meeting.

The Committee reviewed possible HMEP planning projects for the fiscal year starting on October 1, 2015. The various options were reviewed and it was decided to conduct a commodity flow study with at least one count location in each county.

Action: **It was moved by Shayne Morgan and seconded by Scott Garner to select a Commodity Flow Study as the Hazardous Materials Emergency Preparedness planning project for the year. The motion passed unanimously.**

IV. FIRST RESPONDERS ISSUES

Next, the group discussed First Responder issues. The first responders training program and classes were discussed. Additional classes are being scheduled and include using resources from the training trailers. The status of the Supplemental

DRAFT

Environmental Projects website and database was discussed next. It was reported that the website should be fully functional soon.

The Regional Hazmat Team reported that it was conducting a natural gas pipeline tabletop exercise on December 7, 2015, at the Taylor County Emergency Operations Center. The exercise includes the following three modules: Initial assessments and notifications, Initial response from local responders and facility, and Sustained Regional Operations.

Dwayne Mundy gave an update on the hazards analyses process and said that the first half was due to the state on November 2, 2015. He said he submitted updates for Columbia, Hamilton, Lafayette, Madison, and Taylor Counties. The second half is due on March 2, 2016 and will include Dixie, Levy and Marion Counties. Mr. Mundy encouraged emergency management and fire departments to accompany him on the site visits.

The Committee reviewed the training results for October 1, 2014, through September 30, 2015. A total of 19 classes were held which were attended by 270 students whom completed 4,266 hours of training. The soft match value of this training was $170,640. A hazmat training needs survey was reviewed. Additional classes to be added to the survey included: Operations Refresher, Chemistry, and PPE Selection. It was noted that we can no longer offer classes on clandestine drug labs or chemical suicides since these are not transportation related under HMEP Guidelines.

It was reported that the Regional Hazardous Responses Team meeting was being held today at 1:00 p.m. here. The North Central Florida Regional Hazmat Response Team reported that the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration have awarded the Team a $43,600 Pipeline Technical Assistance Grant. The grant will improve preparedness, through enhanced planning, training, and exercising. Milestones include identification of areas and facilities vulnerable to pipeline releases, and conducting three tabletop exercises centered on pipeline compressor stations located in three counties.

Initial milestones in the grant include identifying out of date planning information currently contained in the National Pipeline Mapping System and the Celeritas Identified Site Registry and to provide updated geospatial information. The Team will prepare and distribute to local media outlets a press release advising the public of steps being taken to enhance pipeline safety by emergency responders. This will include information on pipeline hazards and possible protective actions, where additional information is available, as well as contacts for local emergency management agencies.

A gap in the regional hazmat training program has been identified. There is a need for pipeline response training beyond the current awareness level. This should include response to both leaks and the secondary consequences associated with the direct and indirect impacts of a pipeline leak. This will include building natural gas piping leak training props and a purchasing a second training trailer to transport this around the

District. These items will be used in training classes with instructors funded through the existing HMEP training grants.

The group discussed the CSX Rail Respond Online Response Tool available for download at http://csxrailrespond.com. It was reported that this replace the previous app available for smart phones. Dan Smith reported on issues under consideration by the State Emergency Response Team Training Task Force. These include: Online training, memorandum of understanding with the Coast Guard on off-shore hazmat response, Field Operations Guide, tar ball response procedures, foam, and medical procedures. Joe Nelson from Palm Beach County was elected as Chair to replace Donnie Sessions.

V. PUBLIC INFORMATION ISSUES

The LEPC participated with Alachua County Emergency Management on Saturday, September 19, 2015, in "Alachua County Prepares Festival" as part of National Preparedness Month. The focus was on sheltering in-place education and decision making. One goal of the LEPC is to start offering Shelter In-Place Train-the-Trainer classes, with the first class to be held next quarter in Madison.

Annual facility outreach is scheduled for the next LEPC meeting. This supports the goal to increase preparedness between facilities, fire departments, emergency management, hazmat teams and the LEPC. All facility emergency preparedness contacts are being invited to attend the February LEPC meeting which focuses on improving coordination. Emails from E-Plan are being used for invitations.

Also being invited are facilities with large fuel tanks registered with the Florida Department of Environmental Protection that appear to not be exempt from Tier 2 reporting. Reportable facilities include those with aboveground retail tanks and non-retail storage locations which have fuel tanks greater than 2,000 gallons. Exempt facilities not invited include retail gasoline stations with underground tanks and fuel tanks at farms which are considered as routine agricultural use.

VI. OTHER BUSINESS AND INFORMATION REQUESTS

Tim Smoak gave an update on innovative communication system

VII. NEXT MEETING DATE AND LOCATION

It was decided that the next meeting will tentatively schedule for February 18, 2016 at the Gainesville Regional Utilities Eastside Operations Center. The meeting was adjourned at 11:38 p.m.

_____ _____

Chairman Date

DRAFT

September 2, 2015

Director Bryan Koon, Chairman
State Emergency Response Commission
Florida Division of Emergency Management
2555 Shumard Oak Boulevard
Tallahassee, Florida 32399-2149

Dear Director Koon:

The North Central Florida Local Emergency Planning Committee makes the following nominations in recognition of significant contributions to improving hazardous materials emergency preparedness. This year, the nominations recognize people that have contributed many years towards making Florida's hazardous materials safety program effective.

The LEPC selected Ron Mills, retiring LEPC Chair and State Emergency Response Commission member as its 2015 Yatabe Outstanding Achievement nominee. The LEPC would like to recognize his many years of commitment to ensuring that Florida's hazardous materials planning program is focused on a sound technical basis. He has been a strong advocate that we all do the best emergency management job possible to protect our citizens and communities.

Nominations for Certificates of Appreciation are enclosed for individuals that have contributed many years of service in a variety of roles to helping improve hazmat preparedness. These nominations include: Chief Donnie Sessions, Dr. Paul Kremer, and Jennifer Hobbs. We would also like to recognize Isabell Parker from the Division for her dedication.

As you are aware, Levy and Marion Counties joined the North Central Florida District this year. We would like to nominate former District 5 Chair Jamie Arleo, Training Task Force Representative Daniel Hickey and LEPC Staff Mike Arnold for Certificates of Appreciation.

Thank you for the State Emergency Response Commission's consideration of these nominations. If you have any questions regarding this matter, do not hesitate to call LEPC Director Dwayne Mundy at (352) 955-2200 x108 or email: mundy@ncfrpc.org.

Sincerely,

Ronald Mills, Chair

Enclosure

News Releases By Date

EPA Marks 25th Anniversary of EPCRA

Release Date: 10/17/2011

Contact Information: Stacy Kika (News Media Only), Kika.stacy@epa.gov, 202-564-0906, 202-564-4355 Latisha Petteway (News Media Only), petteway.latisha@epa.gov, 202-564-3191, 202-564-4355

“This law is important to safeguarding our communities from chemical emergencies,” said EPA Administrator Lisa P. Jackson. “Twenty-five years after EPCRA was made into law, EPA continues to improve and advance our community right-to-know programs, so that we can ensure the best possible chemical safety protection for every community across the country.”

Public demand for information about chemical releases skyrocketed in the mid-1980s after a deadly cloud of highly toxic pesticide killed thousands of people in Bhopal, India. Shortly thereafter, a serious chemical release at a plant in West Virginia hospitalized 100 people. These events led to the implementation of EPCRA in 1986.

Under EPCRA, Environmental Protection Agency (EPA) collects information on toxic releases through the Toxic Release Inventory program (TRI), a public database containing information regarding the industrial releases of over 600 toxic chemicals from more than 20,000 facilities throughout the nation. TRI was the first publicly available database in the world that contained information on pollutant releases. Many other countries have since followed EPA’s lead, recognizing the value of making toxic chemical data readily available to the public. TRI information enables every American to make informed decisions on the consequences of toxic releases and empowers communities to take action.

EPCRA has made the lives of every American safer from toxic emergencies by establishing emergency planning groups at the state, tribal, and local levels. EPCRA brings together emergency responders from fire and police departments, medical personnel, emergency planners, elected officials, environmental group representatives and local citizens to develop plans to respond to chemical emergencies.

More information on EPCRA and the 25th anniversary: http://www.epa.gov/emergencies/content/epcra/epcra25.htm

My Right-to-Know mobile application for easily accessible TRI data: http://www.epa.gov/tri/myrtk/

FLORIDA STATE EMERGENCY RESPONSE COMMISSION
POLICIES FOR
LOCAL EMERGENCY PLANNING COMMITTEES

(Revised 01/16~~7/09~~)

I. APPOINTMENT

A. Local Emergency Planning Committees (LEPCs) must have representatives from the following occupational categories, as required in Section 301 (c) of the Emergency Planning and Community Right-To-Know Act (EPCRA):

~~1. elected state officials;~~
~~2. elected local officials;~~
1. elected state and local officials
~~3.~~2. law enforcement;
~~4. civil defense;~~
3. emergency management
~~5.~~4. firefighting;
~~6.~~5. first aid;
~~7.~~6. health;
~~8.~~7. local environmental;
~~9.~~8. hospital;
~~10.~~9. transportation personnel;
~~11. broadcast media;~~
~~12. print media;~~
10. broadcast and print media
~~13.~~11. community groups;
~~14. facility owners subject to EPCRA;~~
~~15. facility operators subject to EPCRA;~~
12. facility owners and operators
~~16.~~13. interested citizens;
~~17.~~14. non-elected local officials; and
~~18.~~15. water management district representatives.
16. local option
~~19.~~17. schools

There should be a continued good faith effort on behalf of the LEPC chairperson to ensure that all of the occupational categories are represented on the LEPC.

B. For the purpose of appointment, the State Emergency Response Commission (SERC) has defined "Interested Citizen" as "a person who

resides in the emergency planning district for which appointment is sought to the LEPC, and who is interested in the emergency planning process, but who does not otherwise represent those groups or organizations designated by state and federal law."

C. For the purpose of appointment, Water Management District (WMD) representatives can be staff or board members of the five established WMDs. Membership in this category is limited to one member. An effort should be made to encourage a separate representative for each LEPC.

D. Two types of appointments will be considered for the LEPCs:

1. Regular Appointments – Recommendations for appointments of members and alternate members to an LEPC must be directed to the Compliance Planning Section from the LEPC chairperson. These recommendations must be made in writing and/or submitted via electronic mail. LEPC nominations will be considered at the next scheduled SERC meeting. **All appointments must be approved by the SERC.**

2. Fast-Track Appointments – The SERC chairperson, or alternate chairperson, may fill vacancies on an "interim basis" until the SERC has an opportunity to review and approve the recommendations. However, this appointment method shall only be used when extenuating circumstances warrant. The recommendations can be made by telephone, but will require written follow-up and/or may be submitted electronically. The SERC chairperson, or alternate chairperson, shall respond within ten days of receiving an oral or written request for recommendation.

E. LEPC members and alternates shall be appointed for a two-year term.

~~1. In addition to regular appointments, the SERC will make biennial appointments at its July quarterly meeting of the last even year of each biennium for terms beginning July 1.~~

1. SERC will re-certify all existing LEPC memberships for additional two-year terms each July of all even-numbered years.

2. In the event the SERC does not act on biennial appointments prior to July 1, all appointments will remain in effect until the SERC takes official action.

3. All members may be re-nominated and re-appointed through the SERC's biennial appointment process.

F. A member may recommend an individual to serve as his/her alternate. With the exception of the elected state officials category, the alternate must represent the same occupational category as the primary member. A member in the elected state officials category may recommend his/her aide or a district staff member to serve as his/her alternate. The member's recommendation must be made in the form of a letter to the LEPC chairperson. An LEPC chairperson shall recommend alternate nominations to the SERC in the same manner as regular appointments. All alternate nominations shall be accompanied by the primary member's initial written request. The SERC shall review and consider recommendations for alternates at its next scheduled SERC meeting.

1. It will be the responsibility of the LEPC members to inform the alternates of meeting dates, and to provide them with pertinent meeting materials.

2. If both the member and the alternate are present at a meeting, the member has one vote; the alternate has no vote.

~~3. When the member resigns, or is removed, so is the alternate.~~

3. If the primary resigns and is not immediately replaced, the alternate becomes the primary member.

Formatted: List Paragraph, No bullets or numbering

4. An alternate member may not serve as an officer of the LEPC.

G. The LEPC chairpersons and vice-chairpersons shall serve a two-year term and be elected in accordance with "Roberts Rules of Order." New LEPC chairpersons and vice-chairpersons shall be elected at the first organizational meeting following biennial appointments. The former chairperson shall serve as interim chairperson until said meeting is held and elections can be conducted.

In the event that a chairperson resigns or is removed from the LEPC, the vice-chairperson shall preside until a new chairperson can be elected.

H. The maximum size of the LEPC and the maximum size of the occupation category is up to the discretion of the LEPC.

~~H. The maximum size of the LEPC will be thirty members; with no more than three members per occupational category with the exception of the WMD category. This category is limited to one member per LEPC.~~

~~1. The LEPC chairperson may petition the SERC to increase the size of the LEPC for good cause.~~

~~2. The LEPC chairperson may petition the SERC to increase the size of an occupational category for good cause.~~

~~3. Petitions for expansion of either an occupational category or the overall size of the LEPC must be directed to the Compliance Planning Section. Petitions must be made in writing and/or submitted via electronic mail.~~

I. LEPCs can establish "Technical Advisory Workgroups" consisting of volunteers that will provide assistance to the LEPC in a variety of areas (i.e., planning, public outreach). Non-appointed workgroup members do not have LEPC voting privileges.

J. Nine members constitute a quorum count.

K. There should be a continued good faith effort on behalf of the LEPC chairperson to ensure district wide representation on the LEPC.

L. When an LEPC member changes occupational categories, he/she must notify the LEPC chairperson. Upon doing so, the LEPC member's appointment will be reviewed. The LEPC chairperson may then recommend to the SERC chairperson that the member be appointed to another occupational category, if appropriate.

II. RESIGNATION AND TERMINATION PROCESS

A. When an LEPC member provides written notice of resignation to the LEPC chairperson, or to the SERC, that member will be removed by the SERC.

B. In the event written confirmation of a resignation is unobtainable, a verbal confirmation from the member or the chairperson of an LEPC to the SERC will be acceptable.

~~C. If an LEPC member, or his/her alternate, misses three consecutive meetings, the member's and alternate's appointment is automatically terminated.~~

C. Attendance and termination policies are at the discretion of the LEPC.

Formatted: List Paragraph, No bullets or numbering

D. If a member is recommended for removal from an LEPC by the above process, or for any other reason, the SERC will send a letter to that LEPC member identifying the reasons for removal.

~~III. CONFLICTS OF INTEREST~~ **SAME AS CODE OF CONDUCT SECTION BELOW.**

~~A. All members of the LEPCs shall be advised of the provisions of the Florida code of Ethics for Public Officers and Employees (Sections 112.313 et seq., Florida Statutes), and provided written information regarding its responsibilities thereunder:~~

~~1. to avoid conflicts of interest;~~

~~2. to avoid using committee membership for private gain;~~

~~3. other requirements of the Code of Ethics.~~

~~B. All members of the LEPCs shall be expected to adhere to the provisions of the Florida Code of Ethics for Public Officers and Employees.~~

~~C. All members of the LEPCs shall be expected to conduct themselves in the relationship to the Committee, in a manner so as to not disrupt any meeting, operation, or proceeding, and so as not to improperly interfere with the fulfillment of the mission and responsibilities of the Committee.~~

~~IV.~~III. CODE OF CONDUCT

A. All members of the LEPCs shall be advised of the provisions of the Florida Code of Ethics for Public Officers and Employees (Sections 112.311 et seq., Florida Statutes) and provided written information regarding their responsibilities thereunder:

1. to avoid conflicts of interest;

2. to avoid using Committee membership for private gain;

3. other requirements of the Code of Ethics.

B. All members of the LEPCs shall be expected to adhere to the provisions of the Florida Code of Ethics for Public Officers and Employees.

C. All members of the LEPCs shall be expected to conduct themselves in the relationship to the Committee, in a manner so as to not disrupt any meeting, operation, or proceeding, and so as not to improperly interfere with the fulfillment of the mission and responsibilities of the Committee.

D. Violations of the provisions of the Code of Ethics shall be handled in the manner provided in Chapter 112, Part III, Florida Statutes. Non-ethical

violations of the LEPC Membership Code of Conduct shall be referred to the SERC utilizing the following procedures:

1. Any complaint regarding a non-ethical violation of the LEPC Membership Code of Conduct shall be expressed in a petition endorsed by a minimum of three members of the pertinent LEPC. The petition shall be in writing, addressed to the LEPC chairperson shall set forth in detail the facts which indicate a need for removal of a Committee member (the affected member) and be signed by all petitioners.

2. Following the receipt of the petition, the LEPC chairperson shall schedule the item at the next regularly scheduled LEPC meeting to consider the petition. On or before scheduling said meeting, the chairperson shall provide a copy of the petition to the affected member and each member of the Committee, with a notice regarding said special meeting or session, and advising the affected member and the petitioners to appear to discuss the charges set forth in the petition.

3. The LEPC shall act on the petition and forward its recommendation to the SERC chairperson. A recommendation for removal of the Committee member must pass by a majority vote of those LEPC members present.

4. The affected member may submit a written response to the SERC chairperson, which shall be distributed to the SERC membership.

5. At the SERC meeting at which the petition is considered, SERC staff shall present the position of the petitioners. Any questions by members of the SERC shall be referred to the petitioners, answered by the affected member or by SERC staff. The affected member may then present a response to the petition and answer any questions by members of the Committee. Both the representative of the petitioners and the affected member may ask questions of one another.

6. Should the affected member of the petitioners refuse or fail to appear, the SERC may consider the available evidence and reach a decision.

7. The SERC shall decide the matter of removal following its review and consideration of all the evidence presented to it, on motion duly seconded, made by the representative of the petitioners. If said motion is not made or seconded, the

proceedings shall terminate without further action. The motion to recommend removal must pass by the affirmative vote of ¾ or more of those SERC members present.
